

WONDVERPLEEGKUNDIGE - FIELD APPLICATION SPECIALIST COLD PLASMA WOUND TREATMENT (0,6 FTE)

Job Description

Wounds that have trouble healing are a serious health concern with devastating consequences for patients. In this role you have the opportunity to join a fast-growing company to have impact on millions of lives by introducing a unique medical device solution in chronic wound care. Your task would be to support physicians and wound care specialists on the effective use of medical device PLASOMA for wound healing stimulation with cold plasma. Extensive clinical trials will be executed in various European countries to gain more data: activities in the UK, Germany, Benelux and Nordic countries. Office location: Nijmegen

You are responsible for:

- Providing expert clinical product and technical assistance and training to physicians and wound care specialists on the effective use of Plasmacure's system during case procedures within an assigned geography, in order to meet and exceed business goals.
- Educating customers on Plasmacure products to optimize effective usage by providing technical and clinical information and in-service training.
- Other key responsibilities including supporting new product introductions, communicating user feedback to the company.
- Building and maintaining mutually beneficial relationships with physicians and wound care nurses in order to grow and develop the business.
- Support monitoring of clinical trials.
- Engaging in diagnostic dialogue with multiple internal and external business partners and stakeholders, and formulate solutions based on dialogue and input gained during sessions.

Competences:

- Proactive and flexible attitude with a hands-on mentality
- Team player, and able to work independently
- Fluent and written communication skills in Dutch and English, open and clear communicator
- Building and maintaining mutually beneficial relationships with physicians in order to grow our network and support the business
- Conscientious and structured way of working, even when under pressure
- Willing and able to travel internationally
